

 **PRO-TEK**TM
LUXURY CLICK VINYL FLOORING

TRADE BROCHURE

Wall Panel Structure

① UV Protection Coat

A durable protective UV coating layer to reduce fading.

② Protective Wear Layer

Offers protection from scuff marks and normal wear and tear.

③ PVC Decor Film

Available in 48 authentic tile & stone colours in both Plain and two tile effect designs.

④ Grout Colour Wear Layer

Provides a precise engraved grout line appearance and additional wear protection using our authentic grout line technology to replicate an authentic tiled wall.

⑤ SPC Solid Core

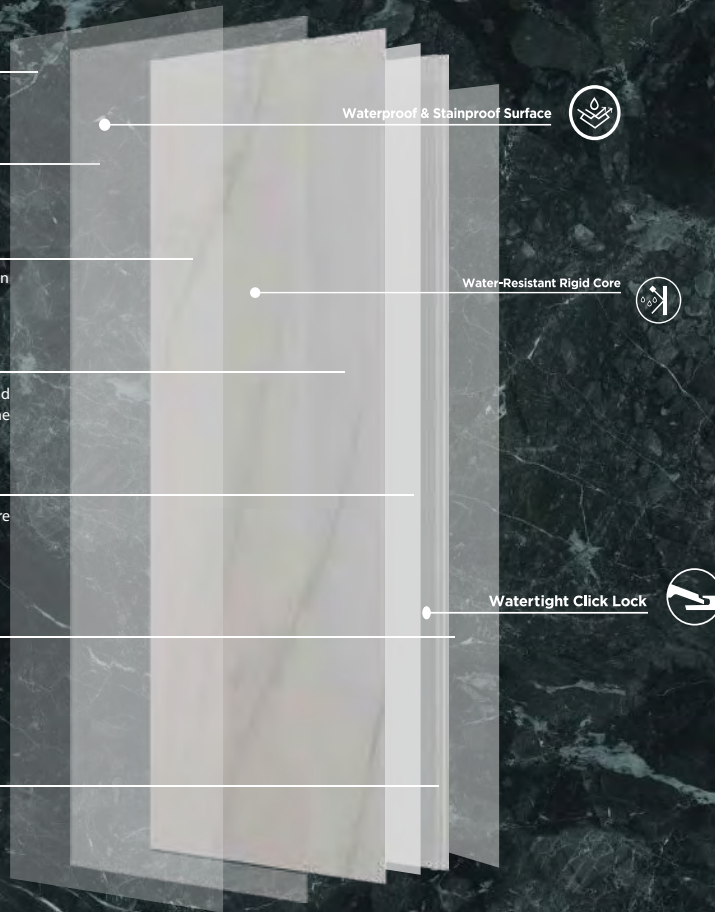

Pro-Tek's™ 100% waterproof and flame-retardant core structure specially formulated for extra stability with a waterproof click lock system.

⑥ Anti - Fungal Layer

Effective prevention against the build-up of mildew and mould.

Quick Click install

Easy and fast installation. Panels lock together with a click system. Panels are fixed to the wall with adhesive.

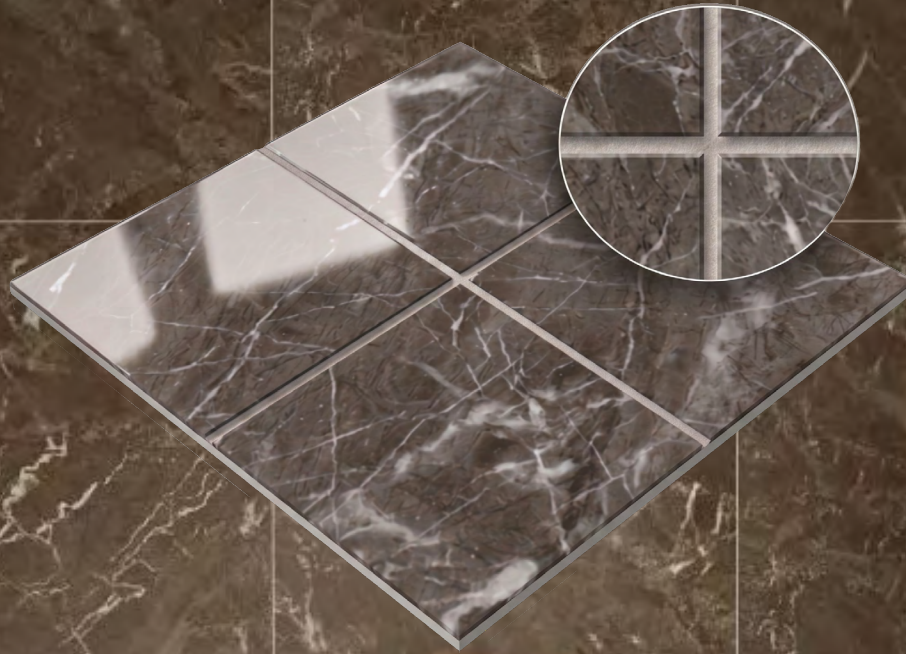

Solid SPC Core

Unlike PVC wall panels, Pro-Tek's™ solid SPC core allows for secure installation of wall-mounted bathroom fixtures directly into the wall behind.

Authentic Grout Line Technology

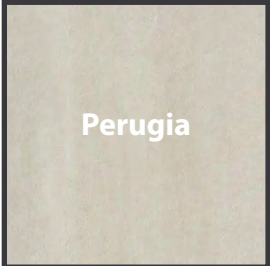

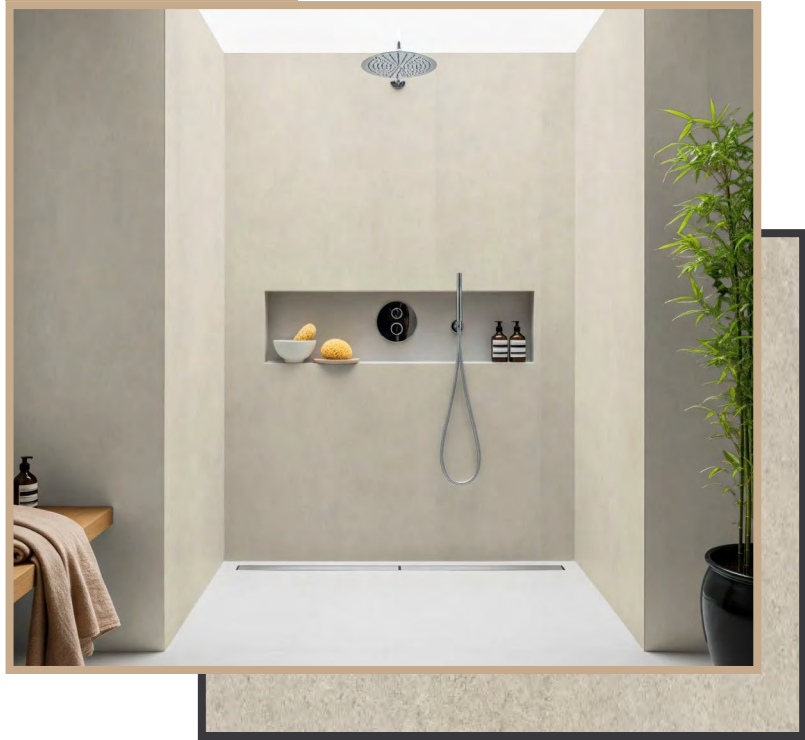

Our Double and Multi-Tile Designs Feature Authentic Grout Lines With a Naturally Recessed Finish.

Just Like Real Tiled Surfaces Creating a Realistic Look Without The Mess.
